

HEATHFIELD SCHOOL

Accessibility Plan Policy

Policy Area:	General
Relevant Statutory Regulations:	ISSR Part 3 NMS Part A, Standard 3 Disability Discrimination Act 1995 SEN and Disability Act 2001 Equality Act 2010
Key Contact Personnel in School	
Nominated Member of Leadership Staff Responsible for the policy:	Bursar
Version:	2024.01
Date updated:	01 September 2024
Date of next review:	01 September 2025

This policy will be reviewed at least triennially, and/or following any concerns and/or updates to national and local guidance or procedures.

Introduction

This policy and plan is drawn up in accordance with the planning duty in the Disability Discrimination Act (“DDA”) 1995. The SEN and Disability Act 2001 (“SENDA”) amended part 4 of the DDA so that it became applicable to education and to prevent discrimination against disabled people in their access to education.

This has placed three key duties on schools, which are:

- not to treat disabled students, staff or visitors less favourably for a reason related to their disability;
- to make reasonable adjustments for disabled students, so that they are not at a substantial disadvantage;
- plan to increase access for disabled students, staff and visitors.

Compliance with the DDA is consistent with Heathfield School’s aims, ethos and Equal Opportunities policy. This plan covers the period 1 September 2024 to 31 August 2025 and will be reviewed regularly with a new one drawn up every 3 years.

Heathfield School (“the School”) is committed to planning for the provision of a fully accessible environment which values and includes all students, staff, parents and visitors regardless of their physical, sensory, social, spiritual, emotional and cultural needs.

The School challenges negative attitudes about accessibility and disability and endeavours to develop cultural awareness, tolerance, respect and inclusion across the School. This policy has been drawn up with regard to the

Equality Act 2010. The School is fully committed to equal opportunities. The School recognises that direct or indirect discrimination might take place and therefore sees the need for a proactive, positive and effective equal opportunities policy.

Aims

The School's aims are as follows:

- To ensure disabled students, staff and visitors are not treated less favourably.
- To ensure 'reasonable steps' are taken to avoid putting disabled students at a substantial disadvantage in matters of education and admission.
- To ensure a planned increase in accessibility of provision for all students, staff, parents and visitors.
- To develop an understanding of, and to promote, human equality and equal opportunities.
- To promote good relations between members of different racial, cultural and religious groups and communities.
- To provide equal access to the curriculum.
- To ensure that each student makes progress commensurate with their developing abilities.
- To promote an environment that challenges gender and social stereotypes and encourages every student to make full use of their talents and abilities.
- To acknowledge and welcome the multi-racial character of society and the nature of cultural diversity.
- To combat racism and other forms of discrimination at every level of the School community relating to both students and staff.

Definition

Equal opportunities. This term means that the School enables all staff and students to develop their potential to the full, irrespective of their race, colour, sex, gender reassignment, sexual orientation, age, pregnancy, religion or disability in accordance with the School's ethos.

Disability is defined by the Equality Act 2010 as "a physical and/or mental impairment which has a substantial and long-term adverse effect on a person's ability to carry out normal day-to-day activities." There is no need for a person to have a medically diagnosed cause for their impairment; what matters is the effect of the impairment not the cause.

This definition provides a relatively low threshold and includes more people than many realise; 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'.

Physical impairment. This is defined as follows:

- Conditions that affect the body such as arthritis, hearing or sight impairment (unless this is correctable by glasses or contact lenses), diabetes, asthma, epilepsy, conditions such as HIV infection, cancer and multiple sclerosis, as well as loss of limbs or the use of limbs are covered from the moment of diagnosis.
- Severe disfigurement (such as scarring) is covered even if it has no physical impact on the person with the disfigurement, provided the long-term requirement is met.
- People who are registered as blind or partially sighted, or who are certified as being blind or partially sighted by a consultant ophthalmologist are automatically treated as disabled.

Mental impairment. This is defined as follows:

Mental impairment includes conditions such as dyslexia and autism as well as learning disabilities such as Down's syndrome and mental health conditions such as depression and schizophrenia.

Other characteristics. A disability may also be identified as follows:

- The length the condition has lasted or will continue: it must be long term, meaning that impairment is likely to last for the rest of the person's life, or has lasted at least 12 months or where the total period for which it lasts is likely to be at least 12 months. If the person no longer has the condition but it is likely to recur, they will be considered to be a disabled person.
- Whether the effect of the impairment is to make it more difficult and / or time-consuming for a person to carry out an activity compared to someone who does not have the impairment, and this causes more than minor or trivial inconvenience.
- If the activities that are made more difficult are 'normal day-to-day activities' at work or at home.
- Whether the condition has this impact without taking into account the effect of any medication the person is taking or any aids or assistance or adaptations they have, like a wheelchair, walking stick, assistance dog or special software on their computer. The exception to this is the wearing of glasses or contact lenses where it is the effect while the person is wearing glasses or contact lenses, which is taken into account.

Special educational needs. The Department for Education website states that children with special educational needs all have learning difficulties or disabilities that make it harder for them to learn than most children of the same age. These children may need extra or different help from that given to other children of the same age. Children with special educational needs may need extra help because of a range of needs, such as in thinking and understanding, physical or sensory difficulties, emotional and behavioural difficulties, or difficulties with speech and language or how they relate to and behave with other people. Legally a person is defined as having special educational needs if they have a learning difficulty which requires special teaching. A learning difficulty means that the person has significantly greater difficulty in learning than most people of the same age. Or, it means the person has a disability which needs different educational facilities from those generally provided by the School for children of the same age.

Background

The School is committed to making reasonable adjustments to allow disabled students to access educational provision at the School. The School occupies a large site consisting of several separate buildings of several storeys. The majority of the buildings do not have lifts. Teaching takes place in fixed classrooms for each subject which means students move widely around campus. This requires students to go from classroom to classroom, often under tight time pressures using stairs.

Heathfield School is a girls' boarding and day school with the majority of boarding areas being housed in the historic main house over several floors. There are no lifts in any of the boarding areas, although some bedrooms are situated on the ground floor. Given the age and layout of many of the buildings, students are required to use stairs and steps for routine access and emergency evacuation purposes.

Strategy

The School plans, over time, to increase the accessibility of provision for all students, staff and visitors to the School in the following areas:

1. **Physical Access** - improving the physical environment to increase the extent to which disabled students can take advantage of education and associated services provided or offered by the School.
2. **Curriculum** - increasing the extent to which disabled students can participate in the School curriculum and co-curricular activities.
3. **Written Information** - improving the delivery of information which is provided in writing for people who have a disability:
 - within a reasonable time; and
 - in ways which are determined after taking account of their disabilities and any preferences expressed by them (or their parents in the case of students).

The School regularly reviews and take steps to improve the physical environment of the School in order to increase the extent to which disabled students are able to take advantage of its education and associated services. This is particularly pertinent when the School undertakes large-scale building works. The previous constructions, the St Mary's Theatre (opened in 2009), STEM building (opened in 2015) and the Cadogan Sixth Form Centre (opened in 2022), are Disability Discrimination Act compliant.

The Accessibility Plan

The plan has been produced after a review of existing arrangements for improving accessibility within the School and an audit of the School for accessibility. The plan is detailed in Appendix 1 and summarised below:

- In performing their duties, Governors, members of the Senior Leadership Team and staff will have regard to the Disability Rights Commission ("DRC") Code of Practice for Schools (2002).
- The School recognises and values an individual's knowledge of their disability and its effect on their ability to carry out normal activities, and respects their right to confidentiality.
- The School provides all students with a broad, balanced curriculum, differentiated and adjusted to meet the needs of individual students and their preferred learning styles, promoting the development of a more inclusive curriculum.

The plan is available in alternative formats upon request.

The plan has been drawn up with reference to:

- The Equality Act 2010
- SEND (gov.uk)
- ISI

Monitoring & Review

The School will review this plan on an annual basis to evaluate:

- The effectiveness of the action taken in the previous school year
- Relevant targets for the next school year
- Responses to any legislative changes
- Changes or expected change to relevant students needs

Monitoring will be a constant process and the Headmistress and Bursar will make the necessary amendments and discuss planning, budget and other concerns.

The Health and Safety Committee may raise action points and these will, in the main, be dealt with by the Bursar. Information relating to H&S meetings is included in the Bursar's report to the Governors with any specific points brought to their attention.

If a student with special medical requirements and/or a particular disability which restricts mobility around the School site is offered a place, a committee will be convened consisting of the Headmistress, Bursar, Class Teacher, Head of Learning Support and the School Nurse.

Context

As at 1 September 2024, the School had no statemented students in the School.

The School has a clear and up to date register of students with Special Educational Needs, Learning Support Pupil Profiles (“LSPPs”) and EHC plans, if applicable.

All students with a learning or physical disability have a profile on Engage and are on the SEND Register which is accessible on Teams, and is reviewed once a term. All the School’s students are fully integrated into School life and participate in the whole curriculum including extra-curricular activities (such as School trips).

The School takes a fully inclusive approach to staff recruitment and aim to appoint the best person based on their skill set and qualifications, regardless of any disability they might have. The School actively implements the School’s “Equal Opportunities Policy” for staff in the day-to-day management of Heathfield School. All staff are provided with the necessary support for their roles. The School regularly reviews its staff’s needs to ensure these are being met.

Admission of Disabled Students

The School values diversity across its community and appreciates the contribution that students with disabilities and / or special educational needs (SEN) can bring to School life. The School seeks to remove barriers to entry to the School for such students. It strives to be a fully inclusive, diverse and welcoming school. The School is committed to full educational inclusion.

The School has an admissions policy which is outlined on its website and available in detail from the Head of Admissions which seeks to remove barriers to entry to the School for students with special needs and/or disabilities. An individual’s economic status, ethnicity, race, or disability do not form part of the assessment processes. Heathfield School is an equal opportunities organisation and is committed to a working environment that is free from any form of discrimination on the grounds of colour, race, ethnicity, religion, sex, sexual orientation or disability.

In order to meet the needs of disabled students, the School requires full information. The School advises parents of children with special educational needs to discuss their child’s requirements with the Head of Admissions and the Head of Learning Support before their child sits the School’s entrance examination so that the School can make adequate provision for them. Parents should provide a copy of an educational psychologist’s report or a medical report to support their request, for example for extra time or other special arrangements. Heathfield asks parents to complete the relevant SEN or disability section of the registration form in respect of a prospective student at the time of application. In assessing any student or prospective student the School may take such advice and require such assessments as it regards as appropriate. Subject to this, the School will be sensitive to any requests for confidentiality.

The School may have a consultation meeting with the parents/guardians following assessment to define the reasonable adjustments the School is committed to provide, discuss any additional services, and make arrangements for review meetings to monitor progress. The School will make reasonable adjustments including the provision of auxiliary aids and services to meet the needs of students who are or become disabled. Where it is practicable to make reasonable adjustments to enable prospective students to take up a place at the School and to satisfy the current admissions criteria, the School is committed to providing those reasonable adjustments.

Where the School agrees to provide additional services, such as learning support, charges may be made at a level that reasonably reflects the cost to the School of providing that service. Details of costs can be provided in writing on request.

The School does not discriminate on these or any other grounds and aims to do nothing to place a disabled student at a disadvantage. In some cases it may be necessary to make reasonable adjustments to ensure this is not the case. Whether an adjustment is reasonable will be determined on the basis of the facts of that individual case, including cost implications.

The School recognises that social, emotional and behavioural barriers to learning can be associated with some disabilities. Mental illness or learning difficulties can cause behavioural issues. The School aims to work together with families to overcome or minimise these as far as is possible.

Temporary and Permanent Needs of Students

Existing and emerging health needs of existing students are closely monitored and arrangements for individualised support are developed in consultation with the individual, their parents and medical and/or other appropriate professionals. Short term mobility needs are considered and guidance given.

Staff Recruitment and the Needs of Existing Staff

Job application forms and contracts will carry a statement that this School is an equal opportunities employer. The School welcomes applications for all posts from appropriately qualified persons regardless of sex, race, religion, disability or age.

People with disabilities will be offered facilities at interviews to enable them to demonstrate their suitability for employment. Candidates for vacant posts will be assessed against relevant criteria only, i.e. skills, qualifications and experience in selection for recruitment.

The School will keep information about the sex, ethnic background, disability and age of candidates who apply for posts, as well as actual appointments in accordance with the data retention protocol.

All employees have equal chances of training, career development and promotion.

All recruits to the School will be offered induction training which will include a reference to the School's equal opportunities policy.

Staff development opportunities will be monitored and the Governors will be informed regularly of notable staff development achievements and promotions. All staff, and in particular those concerned with selection and promotion, are given training on equality awareness.

Existing and emerging health needs of existing staff are closely monitored and arrangements for individualised support are developed in consultation with the individual, and medical (including the School Nurse) and/or other appropriate professionals and every effort is made to support the staff member and promote their safety and well-being. People becoming disabled while in employment will be given reasonable adjustment to retain their jobs, insofar as it is reasonable to do so. Short term mobility needs are considered and guidance given.

Students with Specific Educational Needs ("SEN")

The Governors and staff are firmly committed to inclusivity and to giving every student the best possible start in life. Treating every student as an individual is important to us, and students with Special Educational Needs are welcomed, providing that our Learning Support Department can provide them with the support that they require. We do not however, have the facilities to offer highly individual and intensive treatment.

Students are offered support from the SEND department to access the curriculum – see the School's "SEND Policy". The SENCO works closely with the Deputy Head (Academic) and dyslexia and other specialists to ensure that staff know which students will benefit from which specific approaches. This support is evaluated on a student by student basis and is continuously reviewed to ensure the provision meets need. Strategies employed to support students include:

- training for differentiation within lessons;

- in lesson specialist SEN teaching;
- additional SEN tuition in small groups or one-to-one;
- use of technology to enable students to cope with the demands of academic study such as provision of laptops for written subjects.

Please refer to the School's separate SEND Policy for more information.

Curriculum access

The School has high expectations of its students and strives to ensure that each and every student can take part in the whole School curriculum.

Students have equal access to the curriculum programmes of study throughout each Key Stage, and non-compulsory courses, according to aptitude and ability.

All subjects have equality of opportunity at their core.

School rules clearly and explicitly forbid the verbalisation or vocalisation of discrimination on the grounds of race, culture, religion, gender, sexuality and ability/disability.

Positive attitudes and awareness development for equality of opportunity is specifically taught through the PSHEE programme, while all subjects seek to reinforce this where opportunities arise.

Students' medical needs are managed with both the Nursing Staff and School Doctor (for Boarders) and parent co-ordination (e.g. asthma, diabetes) to ensure lessons are accessible and to minimise the risk of medical complications such as swimming and PE.

Co-curricular and Extra-Curricular access

The Assistant Head (Co-curricular) regularly reviews the co-curricular programme to ensure the programme includes a range of activities which appeal to the full range of our students' needs and abilities.

Staff organising trips and visits are required to consult with the Assistant Head (Co-curricular) ensure any medical needs are considered and catered for.

The Equality, Diversity and Inclusion Group, for staff and students, led by the Deputy Head (Pastoral and Boarding) allows a forum for discussing experiences of diversity and inclusion within School and strategies for celebrating diversity and enabling all members of the community to feel included.

Examinations

Where appropriate, scribes/readers/promoters/laptops/other aid permissible under the regulations will be provided for examinations. The School allows use of a word processor in examinations provided it is appropriate to the candidate's needs, as assessed by the Learning Support Department. A word processor cannot simply be granted to a candidate because the student prefers to type rather than write or because they use a laptop at home. The use of a word processor must reflect the candidate's normal way of working within the School and must be appropriate to their needs. The type of candidates which the School considers would benefit from the use of a word processor in examinations would be, for example, candidates with a sensory impairment, a candidate with a physical disability, a candidate with a medical condition or a candidate with a learning difficulty which has a substantial and adverse effect on their ability to write in a legible fashion.

Please refer to the School's separate Laptop Computer and Word Processor Policy for more information.

Students with English as an Additional Language (“EAL”)

Please refer to the School’s separate English as an Additional Language Policy for more information.

Provision of written information

The School makes use of electronic technology for the majority of its communications with parents/ guardians. This includes use of a secure parent portal, email for newsletters and notifications, and Engage text message alerts for urgent information.

Students have access to computers/laptops both in and out of lessons which can benefit students with SEN.

The School can arrange for text-books to be provided electronically to facilitate the use of text to speech technology.

The School provides written information to students with disabilities in ways that are user-friendly and fully support them in their learning (use of different coloured papers for dyslexic students and increasing the font size of printed materials for visually impaired students).

All School reports are available electronically and so can be adjusted by the recipient to take account of any visual impairment (e.g. use of larger font size).

Food

The catering team works closely with the Deputy Head (Pastoral and Boarding) to ensure appropriate food provision to accommodate known allergies. The **Department Head** of Cookery also works closely with the catering team and the Deputy Head (Pastoral and Boarding) to ensure an updated record of food allergies and preferences is considered in planning work for the curriculum and after school activities.

Please refer to the School’s separate Catering Policy for more information.

Physical environment

The School recognises that some students and staff may have physical disabilities. One of the obvious problems which the School has (in common with many other schools) is its layout which covers a wide area and consists of many separate and some historic buildings of several stories and without lifts, which have grown up since the School was founded. Another is the system, again common to many schools, of having fixed classrooms for each subject, based on the valid ground of having all the facilities for one subject in one place. This requires students to go from classroom to classroom, often up steps or stairs in buildings without lifts. The boarding facilities pose similar problems to a greater degree. It is not hard to conclude that any person with impaired mobility is going to be put at a disadvantage by these problems, if not prohibited altogether from access to some or all of the educational and other facilities the School offers. Nor can these matters be remedied in any substantial way by reasonable adjustments short of making major alterations to physical features of the School at prohibitive cost. Even the fruition of long-term plans can only go some way to ameliorate the position.

The School does not currently have any students with mobility restrictions, however the School has worked with parents and visitors to ensure events are accessible to individuals with additional physical need.

Wheelchair access is possible through the library to the main building via a ramp. Parents evenings and the main School performances are held in the St Mary’s Theatre where step free access is possible for wheelchair users. Doors are wider or entrances are double doors at these points. The Cadogan Sixth Form Centre also provides step free access to the building. Ramps provide access to the main building via the library, the swimming pool and the

cookery building.

A wheelchair accessible toilet is available on the ground floor of the STEM building, swimming pool, St Mary's Theatre and Sports Hall and both the ground and first floor of the Cadogan Sixth Form Centre.

Lifts are available in the Cadogan Sixth Form Centre, STEM building and St Mary's Theatre providing access to the second floor of these buildings.

Faulty lighting will be replaced within 24 hours wherever possible.

Students with medical disabilities, including hearing or visual impairment, are fully integrated into School life and participate in the whole curriculum including extra-curricular activities (such as School trips). There is a fully inclusive approach to staff recruitment and the School aims to appoint the best person based on their skill set and qualifications and regardless of any disability they might have.

In the last three years (2021-2024), the School has completed:

- Contrasting edges on stairs, inside and out (on going as areas are redecorated).
- Improving lighting in key areas such as boarding corridors, car parks.
- Installing rails on new staircases.
- Arranging scribes/readers/promoters/computers for **students** needing such assistance in examinations, and appropriate training.
- Arranging for enlarged examination papers for **students** needing such assistance.
- Providing adrenaline auto-injector training for teaching and pastoral staff.
- Reviewing and streamlining the fire procedure.
- Improved lighting along the pathway leading to the swimming pool

APPENDIX 1: Accessibility Plan

Physical Access

Present Position	Objectives	Action Required	Timescale
Ease of physical access to the School buildings varies across the site reflecting the different age and condition of buildings.	<p>To take every opportunity to upgrade and improve physical access to all areas of the School buildings and site.</p> <p>Ensure all new lighting installed at the School is appropriate.</p>	<p>Bursar and Facilities and Estates Manager to ensure that all works take into account disabled access and needs.</p> <p>LED is now installed in every new build and the School is changing all lights to LED on a rolling programme basis.</p>	September 2025
<p>St Mary's Theatre including Music classrooms Modern building constructed in accordance with Building Regulations. Lift in place. Disabled toilet.</p>	Continue to monitor in case situation changes.	Monitor. Consider installing hearing loop if need required.	Ongoing
<p>STEM building Modern building constructed in accordance with Building Regulations. Lift in place. Disabled toilet.</p>	Continue to monitor in case situation changes.	Monitor	Ongoing
<p>Wyatt House First floor rooms are not easily accessible but ground floor rooms in house have level access but doors are probably not wide enough for a wheelchair. Movement about the Courtyard by a wheelchair would be restricted due to steps although some houses have level access.</p>	Should a student or member of staff in a wheelchair or with hearing disability come to Upper Sixth then some minor works will be required. The School would look at making these adjustments when the precise requirement emerges to ensure it is appropriately tailored.	Monitor Upper Sixth student and staff requirements and be prepared to adjust/improve access as required in the future.	Works to be completed before student with disability joins Sixth Form.

Present Position	Objectives	Action Required	Timescale
<p>Cadogan Sixth Form Centre This is a Sixth Form Centre unit with associated staff accommodation. It has been designed with accessibility in mind and in accordance with current legislation and building regulations. The building includes a lift and two disabled toilets.</p>	<p>To provide suitable study and relaxation space for current and future Sixth form students and staff compliant with legislation. Wheelchair access was considered at all stages of the project.</p>	<p>Monitor</p>	<p>Ongoing</p>
<p>Classroom block Level access to lower floor and good access into classrooms. Nearest disabled toilet in adjoining STEM building. Access to first floor difficult due to stairs and no lift.</p>	<p>Ensure students and staff with mobility issues have access to appropriate teaching facilities.</p>	<p>Ground floor OK, school would look at resolving the first floor issue by timetabling those with mobility restrictions into the ground floor only.</p>	<p>Timetable adjustments will be implemented once student with disability is identified and academic requirements known.</p>
<p>Art & Textiles rooms Access to first floor by stairs – no lift. This restricts access to these specialist classrooms.</p>	<p>A mobility restricted student or member of staff would need access to the first floor art rooms due to need to be in specialist classroom. Objective would be to provide this access.</p>	<p>When required, the school would take appropriate action. This might be a timetabling solution, stair lift, an actual lift or a combination of these.</p>	<p>Works to be completed before student with disability joins school.</p>
<p>Main School Access to floors above ground floor is restricted due to lack of lift access. No lift access to infirmary or boarding areas. Good access to dining room, chapel (with small wooden ramp), Head's study, common rooms and assembly hall. No disabled toilet or shower facilities in the main school. Narrow staircases and corridors above ground floor level prevent wheelchair access in many areas, due to the age of the building. Bursary office only accessible via a set of three steps.</p>	<p>To provide full access to the main school common-user areas for mobility impaired student or member of staff.</p>	<p>Should the school employ a member of staff or have a mobility impaired student join the school then an individual access plan would be developed. Access problems would need to be addressed through major works.</p>	<p>Works to be completed before student with disability joins school. Works to be completed within 3 months if disabled member of staff joining bursary team.</p>
<p>Swimming Pool Access to pool area is level and ramped. Access to</p>	<p>Provide access to swimming pool facility for disabled users.</p>	<p>A hoist facility to assist disabled swimmers into the pool would</p>	<p>Adjustments to access arrangements at the pool</p>

Present Position	Objectives	Action Required	Timescale
changing area is step free. Disabled toilet in waiting area.		be procured if/when required.	will be completed when precise requirement is known.
Cookery Building Access by ramp has been provided to building. Counter levels not DDA compliant. Nearest disabled toilet in theatre.	Continue to monitor in case situation changes.	Monitor	Ongoing
Library The ground floor of the senior library, including the reading room, has level access from the dining hall, ramp access from outside and level access to toilets in the classroom block.	To ensure that disabled staff, visitors and students are not disadvantaged by being unable to access library facilities.	Be prepared to adjust/improve access as required in the future.	Ongoing
Facilities & Laundry Department Level access to basement and ground floor laundry. Single step access to Housekeeping tearoom. Nearest disabled toilet in St Mary's Theatre. Due to nature of employment of staff in Facilities and Housekeeping Departments it is unlikely that we will require to improve access to basement or ground floor. This will be kept under review.	Should the school employ a member of the facilities or housekeeping staff who is unable to access the ground floor then the school would take steps to overcome that access issue.	Be prepared to adjust/improve access as required in the future.	Works to be completed within 3 months of disabled member of staff joining facilities and/or housekeeping team.
Visitors The School has improved its dealing with disabled visitors by seeking advanced warning of any mobility issues. For example, anyone invited for interview is given the opportunity to warn the School of a disability issues.	To further improve our proactive approach to determining any disability issues that a visitor to the School may have prior to their arrival.	All member of staff to be alert to the School's approach and to alert the Bursar or another senior member of staff if there are areas we can improve.	Ongoing

Present Position	Objectives	Action Required	Timescale
The School currently supports students with visual or hearing impairments on a case by case basis, as the need arises.	Review as situation arises.	Monitor	Ongoing

Curriculum

Present Position	Objectives	Action Required	Timescale
To consider adjustments which might be made to the curriculum for students with special needs.	To make sure that schemes of work ("SOW") in all subject areas are accessible to students with differing special needs and disabilities.	Review of schemes of work in relation to different special needs and disabilities. Look for ways to overcome any difficulties that might arise. Investigate specific health and safety or supervision issues.	SOW reviewed on a yearly basis in Michaelmas term by HoDs and SENCo
	To make sure that schemes of work in all subject areas are able to be delivered to all students using methods directly suited to any special needs and/or disabilities.	Review of schemes of work in relation to different disabilities. Look for ways to overcome any difficulties that might arise. Investigate specific health and safety or supervision issues.	Methods of delivery reviewed by HoDs on a yearly basis
	To provide ICT that is accessible to students with differing special needs and disabilities.	Review ICT strategy and investigate specialist equipment e.g. enlarged screens and keyboards.	Methods of delivery reviewed by HoDs on a yearly basis
The School provides a number of extra-curricular activities.	To ensure the School provides a large range of extra-curricular activities for students with differing special needs and disabilities.	Review current arrangements, to increase opportunities available to students with special needs and disabled students.	Extracurricular activities reviewed by the Assistant Head (Co-curricular) on a yearly basis
Weekend Activities are organised by Assistant Head (Co-curricular)	To ensure there is a large provision of activities to be undertaken by all students.	Reminder to Boarding team on an annual basis that disabled girls and girls	SENCo and Boarding team to inform Deputy Head

Present Position	Objectives	Action Required	Timescale
		with special needs should always be considered when activities are planned	<p>(Boarding and Pastoral) of any needs.</p> <p>Inset budget to provide inset for particular cases.</p> <p>INSET requirements noted and are arranged as required.</p>
Teaching staff are encouraged to attend courses/seminars to help them in their delivery of the curriculum.	To provide training for teachers on delivering the curriculum in different formats, in order to increase access to the curriculum.	Identify any teachers who would benefit from such training and arrange its provision.	<p>Training needs reviewed by SENCo and Deputy Head (Academic) on a yearly basis.</p> <p>Performance Review successfully established with Inset dimension.</p> <p>Internal Focus sessions run regularly and Twilight sessions focus on SEN/differentiation.</p>
Pastoral and Teaching staff monitor student needs.	To monitor and anticipate needs likely to be faced by disabled students in general, ensuring the diversity of children's needs is addressed.	Review provision in all areas of the curriculum with School Nurse, Doctor and pastoral staff.	<p>SENCo and HoDs to inform Deputy Head (Academic) of any needs.</p> <p>Inset budget to provide inset for particular cases, for example focus on Mental Health September 2017 and ADHD April 2023.</p>

Present Position	Objectives	Action Required	Timescale
			INSET requirements noted and are arranged as required.
Examinations and Database Officer manages access arrangements with SENCo and Deputy Head (Academic)	To ensure access arrangements are in line with JCQ regulations, SENCo advice and individual students circumstances.	Ongoing revision of arrangements and student needs.	Arrangements are finalised in Lent of each year.

Written Information

Present Position	Objectives	Action Required	Timescale
Written material is provided on an ad hoc basis in alternative format if required.	To improve the availability of written material in alternative formats, in order to support the delivery of information to disabled students, parents and staff.	Continue to provide written material in the optimum format as required by specific individuals e.g. coloured paper, large font.	School currently supports several students in this way. Should further requirements emerge then appropriate arrangements would be made, including the possibility of using external agencies (e.g. large format printing) as and when required.
Information for both students and parents is available on the School website.	Improve communication with existing and potential disabled students and parents.	Review School website and Teams to ensure clear, simple and easy to use.	Current website complies with DDA.
Staff attend regular termly INSET meetings.	Increase staff awareness of the need for, and availability of, written material in different formats should there be a requirement.	Deputy Head (Academic) uses whole staff INSET to brief academic staff on the need to take into account individual student needs when using written material. Meetings also used to disseminate information relevant to specific students as well as more general information.	Deputy Head (Academic) and SENCo to continue to ensure information provided to staff as required.

Present Position	Objectives	Action Required	Timescale
<p>Some students taking public examinations require specific support with written material.</p>	<p>To ensure that those students with suitable evidence of a learning need are provided the right support with the written text during public examinations.</p>	<p>To continue to provide public examination papers in the most suitable format for individual students who have evidence of a specific learning need in accordance with the examination board rules.</p>	<p>Deputy Head (Academic) in conjunction with the Exams Officer to continue to ensure students are provided public exam papers in the optimum format in accordance with their learning need. School has procured specialist equipment (reader pens) to support students as necessary.</p>

APPENDIX 2: Suggested questions for an internal audit of accessibility

Section 1 - How does your school deliver the curriculum?

- Do you ensure that teachers & teaching assistants have the necessary training to teach and support disabled students?
- Are your classrooms optimally organized for disabled students?
- Do lessons provide opportunities for all students to achieve?
- Are lessons responsive to student diversity?
- Do lessons involve work to be done by individuals, pairs, groups & the whole class?
- Are all students encouraged to take part in music, drama & physical activities?
- Do staff recognize and allow for the mental effort expended by some disabled students, for example using lip reading?
- Do staff recognize and allow for the additional time required by some disabled students to use equipment in practical work?
- Do staff provide alternative ways of giving access to experience or understanding for disabled students who cannot engage in particular activities, for example some forms of exercise in physical education?
- Do you provide access to computer technology appropriate for students with disabilities?
- Are school visits, including overseas visits, made accessible to all students irrespective of attainment or impairment?
- Are there high expectation of all students?
- Do staff seek to remove all barriers to learning and participation?

Section 2 - Is your School designed to meet the needs of all students?

- Does the size and layout of areas – including all academic, sporting, play, social facilities; classrooms; the assembly hall; canteen; library; gymnasium and outdoor sporting facilities; playgrounds and common rooms – allow access for all students?
- Can students who use wheelchairs move around the school without experiencing barriers to access such as those caused by doorways, steps and stairs, toilet facilities and showers?
- Are pathways of travel around the school site and parking arrangements safe, routes logical and well signed?
- Are emergency and evacuation systems set up to inform ALL students, including students with SEN and disabilities; including alarms with both visual and auditory components?
- Are non-visual guides used, to assist people to use buildings including lifts with tactile buttons?
- Could any of the décor or signage be considered to be confusing or disorientating for disabled students with visual impairment, autism or epilepsy?
- Are areas to which students should have access well lit?
- Are steps made to reduce background noise for hearing impaired students such as considering a room's acoustics and noisy equipment?

- Is furniture and equipment selected, adjusted & located appropriately?

Section 3 - How does your School deliver materials in other formats?

- Do you provide information in simple language, symbols, large print, on audiotape or in Braille for students and prospective students who may have difficulty with standard forms of printed information?
- Do you ensure that information is presented to groups in a way which is user friendly for people with disabilities eg, by reading aloud overhead projections and describing diagrams?
- Do you have the facilities such as ICT to produce written information in different formats?
- Do you ensure that staff are familiar with technology and practices?
